Edogawa, Tokyo 

#### Summary

I'm a UI/UX Designer with over 8 years of experience in crafting intuitive, emotionally intelligent digital experiences. I specialize in complex web and mobile applications, managing the full design process—from user research and persona creation to stakeholder communication and delivery. Guided by creativity, precision, and empathy, I strive to design experiences that bring measurable impact.

I hold a JLPT N5 certification and am currently pursuing N3

#### Experience

**Team Lead - Nexware Technologies** Feb-2020 - Dec-2024

- Led product strategy by aligning design decisions with business goals and delivering user flows, wireframes, and concept designs.
- Drove UX vision through workflows, rapid prototypes, UI mockups, and usability testing.
- Enhanced usability and consistency by applying user-centered design and generating innovative B2B/B2C solutions.

**Senior UIUX Designer - Infinijith Apps and Technologies** Dec 2018 - Feb 2020

- Designed intuitive e-commerce interfaces and improved navigation for better user satisfaction.
- Supported front-end implementation and optimized UI for service and marketing pages, enhancing SEO performance.

**UIUX Developer - Tibsolutions** Oct 2017 - Nov 2018

- Collaborated with the product team to create visual prototypes and deliver clean, responsive UI for new and existing products.
- Improved performance by optimizing UI components, applying SEO principles, and ensuring seamless device compatibility.

**Web Designer - Crystalpro** July 2015 - Oct 2017

- Developed web applications using HTML5, JavaScript, jQuery, and Bootstrap.
- Created wireframes, mockups, and UI designs for static and dynamic web applications.

#### Education

**ME Applied Electronics - BIT Sathy** June 2011 - April 2013

**BE ECE - Anna University Coimbatore** July 2007 - April 2010
